CAUTION: This process uses a caustic jelly which is safely packed in sealed containers inside the large film roll. If accidentally you should get some of this jelly on your skin, wipe it off immediately. To avoid an alkali burn, wash the area with plenty of water as soon as possible. It is particularly important to keep the jelly away from eyes and mouth. Keep discarded materials out of reach of children and animals, and out of contact with clothing and furniture, as discarded materials still contain some jelly.

FULL WARRANTY: Polaroid will replace any film that is defective in manufacture, labeling or packaging, provided representative samples are returned to your dealer or to Customer Service. This warranty excludes all consequential damages and does not apply to outdated film.
